OBJECTIVE

Aspiring MERN Stack Developer with strong skills in MongoDB, Express.js, React, and Node.js, seeking to leverage my passion for web development and problem-solving abilities to contribute to innovative projects and grow within a dynamic tech team.

PROJECTS

Taxidi

A local car rental web application built with the MERN stack (MongoDB, Express.js, React, and Node.js), serving the Kannur district.

- **User Authentication & Verification:** Secure account creation with driving license verification for booking eligibility.
- **Diverse Vehicle Listings:** Access to a variety of vehicles, including sedans, SUVs, and compact cars from brands such as Maruti Suzuki, Renault, Volkswagen, Mahindra, and Tata.
- **Seamless Booking:** Easy and straightforward vehicle booking process.
- **Host Opportunities:** Users can list their vehicles on the platform to earn passive income.
- **Taxidi-Owned Fleet:** Provides its own fleet of vehicles for rentals, in addition to user-listed vehicles.

ChatWave

A real-time chat platform built using React, Node.js, and Socket.IO, designed to facilitate seamless and instant communication between users.

- **Real-time Messaging:** Engage in live conversations with instant message delivery.
- **User-friendly Interface:** Intuitive design for easy navigation and interaction.
- **Multi-purpose Use:** Ideal for social networking, teamwork, and connecting with others.
- **Scalable and Secure:** Built with scalability and security in mind.

FoodWo

FoodWo is a locally-focused food delivery service that operates exclusively in Kannur District. We believe in simplifying the food ordering process, ensuring timely deliveries, and offering a wide variety of culinary delights to our customers.

- **Admin Dashboard:** Manage users, products, and orders.
- **User Home:** Browse products and manage accounts.
- **Order & Payment:** Secure checkout and order tracking.
- **Coupons & Promotions:** Manage and apply discounts.
